ABOUT MAIN MAN SUPPLIES

Established and founded in 1989 by Derek Williams, in January 2011, we became part of Lalan Rubber (PVT) Ltd, a significant manufacturer of latex and nitrile gloves based in Sri Lanka. With their own latex plantations, centrifuge and dipping plants they offer us a "tree to shelf" service. Lalan Rubber (PVT) has net assets in excess of \$100m and offers us strong financial backing.

They are consistently investing into new production plants and adding to their product portfolio which provides Main Man Supplies a strong base from which we can offer good continuity of supply in this very volatile and ever-changing market.
